**Shower Curtains and Accessories**

Beautify Your Facility with Fashionable and Functional Products

# Fashionable and functional shower curtains.

They're among the most forgotten products in most healthcare facilities. Yet shower curtains help beautify your facility and create a welcoming environment. They also perform important functions and help meet state and federal regulations.

We offer a variety of fabrics and styles to meet your healthcare needs, complement your décor and manage your budget requirements. Our shower curtain fabrics are water repellent, so there's no need for an additional liner. Choose from in-stock fabric styles to get your curtains faster, or work with a design specialist to develop a custom shower curtain solution.

- » With our innovative Hookless® shower curtains, change-outs are a breeze.
- » Our economical vinyl shower curtains are unhemmed and mildew-resistant with metal grommets for prolonged use.
- » To enhance patient safety, we have shower curtains specifically designed for a behavioral health facility or program.

## Design and Logistics Services

From design assistance through implementation, we partner with you every step of the way to ensure your complete satisfaction. Our design specialists and project managers can help make your vision a reality.

Best of all, our curtains are fabricated in our U.S. facility so you can be assured your fabric is precisely cut and sewn to your exact measurements and standards with the highest attention to detail. They'll also arrive faster since they're shipped domestically.

Warranty: Medline warrants the materials and workmanship of all our decorative textiles for a period of one (1) year, beginning on the date of installation. Medline's liability for breach of warranty is limited to the workmanship and the materials required to repair or replace, at Medline's option, any materials or workmanship that do not satisfy this warranty.

# Custom Options

## Hidden Hookless Shower Curtains

Medline's Hidden Hookless shower curtains hang in seconds because there are no rings to deal with—all you do is slide the curtain onto the shower rod. The shower rods are hidden from view (outside the shower tub/stall) by the fabric chosen.

- » 100% polyester
- » Water repellent
- » Hidden Hookless shower curtain ring sets will work with shower rods 1" in diameter only
- » See page 8 (Shower Shield) and page 9 (Shower Guard) for color and pattern options\*

\*These curtains are custom ordered. Prior to ordering, please ask your Medline sales representative for colors, patterns, sizes and installation details.

This curtain ships within 21 business days of ordering.

Shower Shield Collection, Palm

# Behavioral Health Shower Curtains

Whether you are involved in designing a new building, renovating space, or maintaining an existing behavioral healthcare program, this breakaway track and shower curtain system is an excellent choice for “sensitive” areas of psychiatric, pediatric or correctional facilities where patients are not constantly supervised and patient safety is paramount.

## Breakaway Track

This system provides an attractive suspension device while maintaining a safe environment since curtains easily detach from track.

## Hook and Loop Fastener System

This is an easy, attractive and safe method to hang curtains. Curtains hang from safety tabs—4" long and ¾" wide strips that are inserted in the track. The safety tab or “hook” engages into the “loop” sewn into the top of the curtains to provide the closure mechanism in which the curtain hangs from the track, along with a breakaway feature for added safety.

## Wide Variety of Fabrics

The system can use most any fabric featured in this brochure since curtains are custom made for each order. The Sure-Chek collection (see page 5) is the most commonly used fabric for behavioral health curtains because of the following safety properties:

- » Made from an extra heavy-duty vinyl
- » Exceptionally durable and fluid proof
- » Flame-resistant<sup>2</sup>
- » Tear-resistant
- » Antimicrobial-treated to protect the product
- » This product is treated with an antimicrobial additive to protect the product. This product does not protect users or others against bacteria, germs or other disease organisms.

These curtains are custom ordered. Prior to ordering, please ask your Medline sales representative for colors, patterns, sizes and installation details.

This curtain ships within 21 business days of ordering.

Shower Shield Collection, Blue Moon

## More Custom Options

The following custom options can be integrated with almost all shower curtain styles in this catalog. Ask your Medline representative about design and ordering information.

### Mesh

Some facilities require mesh to be used in shower stalls to meet certain fire code regulations. Mesh can be added to the top of any shower curtain, in any increment needed. Grommets are then placed on the mesh header, allowing you to attach it to either a shower rod using hooks, or standard track using carriers. For behavioral health settings, add a strip of hook and loop to the top of the mesh, or add the hook and loop between the mesh and the fabric portion.

Contact your Medline sales representative for details.

### Chain Weights

Chain weights are sewn into the hem to help curtains remain in position and improve the hang for a classic look.

Contact your Medline sales representative for details.

# Shower Curtain Accessories

## Shower Rings and Hooks

Choose plastic rings, steel snap hooks or wire hooks with ball bearings to complement your décor.

Item Number	Description	Pkg.
MCDKA9100C	Clear Plastic Shower Curtain Ring	12 ea/dz

# General Measuring Tips and Instructions

You can dramatically increase the look and feel of a room by updating your shower curtains, and we can help. The first step is getting the right measurements. The following information is meant to be a basic guide and is not all inclusive.

## Do's and Don'ts of Measuring

1. **Do** always measure every shower opening, ceiling or track (depending on the product you need) for every room you need curtains. Although the openings may look to be the same size, they may be a little different.
2. **Do** use a 1" steel measuring tape.
3. **Do** list "width" first and "height" second with giving measurements (e.g., 67"W x 90"H).
4. **Do** round your measurements up and use the appropriate increment. Measure to the nearest inch.
5. **Do** record all important information regarding hardware when having a product made to fit an existing rod or track.
6. **Don't** measure only the curtain when ordering replacements. You shouldn't assume the existing curtain is the one that was made to fit that shower. It's not uncommon that after laundering, the curtains would be installed in the wrong showers.
7. **Don't** approve a mock-up sample without installing it.
8. **Do** call Medline's Design Services for help when needed at 800-289-9793.

# Installation Options

Choose from these two installation options when ordering:

## Shower Rod Install

1. Measure from bottom of rod to where you want the curtain to end = Bottom of rod to bottom of curtain
2. Indicate diameter of rod—normally 1"
3. Things to note:
  - » Is there a curb?
  - » Do you want the bottom of the curtain to hit the floor or the top of the curb?
4. Measure opening width

## Traditional or Breakaway

1. Measure floor to ceiling height
2. Measure opening width
3. Things to note:
  - » How much floor clearance do you need?
  - » Is there a curb?
  - » Do you want your curtain to touch the floor, or do you want any clearance?

# Color Index

# PROFESSIONAL DESIGN SERVICES

Whether it's color ideas, installing window fashions, or a complete room makeover, our design consultants can help. At Medline, we offer a broad collection of decorative textiles that are thoughtfully designed for the healthcare setting—functional, budget-minded and fashion forward.

Our design specialists and project managers can work with you from start to finish, helping you create livable spaces that enhance comfort and satisfaction for patients, residents and staff. From window treatments and cubicle curtains to quilts and bedspreads and more, the Medline design team can help measure your space, discuss color schemes, handle delivery logistics—everything you need to complete your project.

## Let's get to work.

To get started, ask your Medline sales representative for more information on our professional design services or visit [www.medline.com/products/furnishings/decorative-textiles](http://www.medline.com/products/furnishings/decorative-textiles) to learn more.
