

# Shower in style

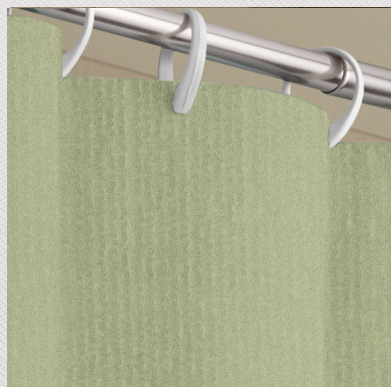

Shower Curtains  
and Accessories

# Stylish and easy bathroom upgrade? You got it.

View our comprehensive collections:

## Vinyl

With its natural water repellence, vinyl offers an easy to maintain curtain solution that holds up against mold and mildew.

## Polyester

Polyester curtains offer the designer look and feel of fabric with the convenience of easy laundering.

## Nylon

Nylon shower curtains are cost-effective and lightweight, with quick delivery to meet your project needs.

Spot your ideal shower curtain solution with these selection tips:

**Custom shower curtains** are made-to-order. Typical lead time is 21 business days plus shipping pending fabric availability.

**Stocked shower curtains** are stocked in our branches and/or available on demand. Typical lead time ranges from 3–5 business days plus shipping.

**Quick-ship shower curtains** are available on demand. Typical lead time ranges from 7–10 business days plus shipping.

**Traditional shower curtains** use traditional grommets for mounting on track with carriers or a rod with rings.

**Hookless shower curtains** use hookless ring sets for mounting exclusively on a rod without the use of rings or carriers.

## Accessories

## Why Medline Interiors?

For more than 100 years, we've leveraged our healthcare expertise to introduce cutting-edge textiles that help customers drive efficiency, cost savings, and patient satisfaction, without compromising on aesthetics.

# Sure-Chek

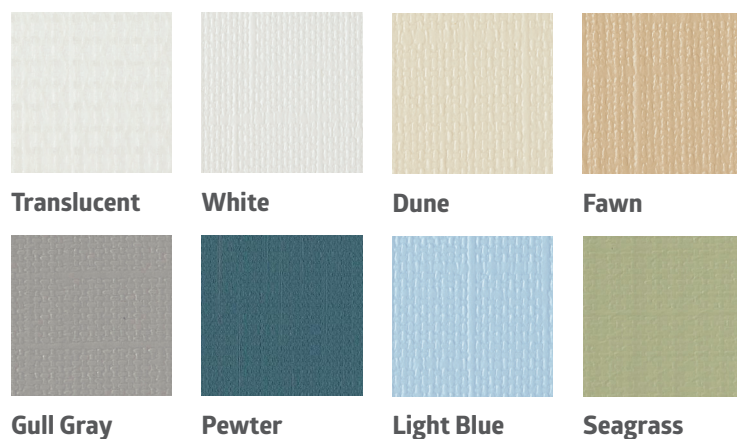

## Custom Vinyl Collection

This extra heavy-duty vinyl features an embossed woven pattern, perfect for high-traffic environments.

# Specialty options

## Hidden Hookless Shower Curtains

Medline's Hidden Hookless shower curtains hang in seconds because there are no rings to deal with—all you do is slide the curtain onto the shower rod. The shower rods are hidden from view (outside the shower tub/stall) by the fabric chosen.

- Hidden Hookless shower curtain ring sets will work with shower rods 1" in diameter only
- Contact your Medline Representative for color and pattern options

## Behavioral Health Shower Curtains

We offer multiple solutions to meet your behavioral health shower curtain needs, including hook-and-loop headers, vision windows, and more. All solutions are custom made-to-order using the custom fabric options in this brochure. Contact your Medline Representative for more details.

### Hook and Loop Header

- 1" or 2" "loop" side header engages with 3/4" wide "hook" side safety tabs in the breakaway track
- No metal grommets or header components
- Can be configured with or without mesh to meet fire code requirements

**Not compatible with standard privacy curtain track carriers or nylon breakaway carriers.**

### Breakaway Assembly

- Standard metal grommet header assembly
- Configured with mesh to meet fire code requirements
- 2" hook-and-loop strip connects to the bottom of the mesh header with the top of the fabric portion of the curtain. When under pressure, the curtain panel detaches or "breaks away," leaving the mesh in place
- Uses standard privacy curtain track carriers or nylon breakaway carriers

**Not compatible with "hook" safety tabs.**

### Window Shower Curtain

- Customizable header (standard metal grommets or hook-and-loop strip)
- Vision window(s) with solid middle panel allow for visual verification of patient safety without sacrificing privacy
- Custom made-to-order using the custom fabrics in this brochure as well as clear vinyl options
- Can be configured with or without mesh to meet fire code requirements

# More specialty options

---

The following options can be integrated with almost all shower curtain styles in this catalog. Ask your Medline Representative about design and ordering information.

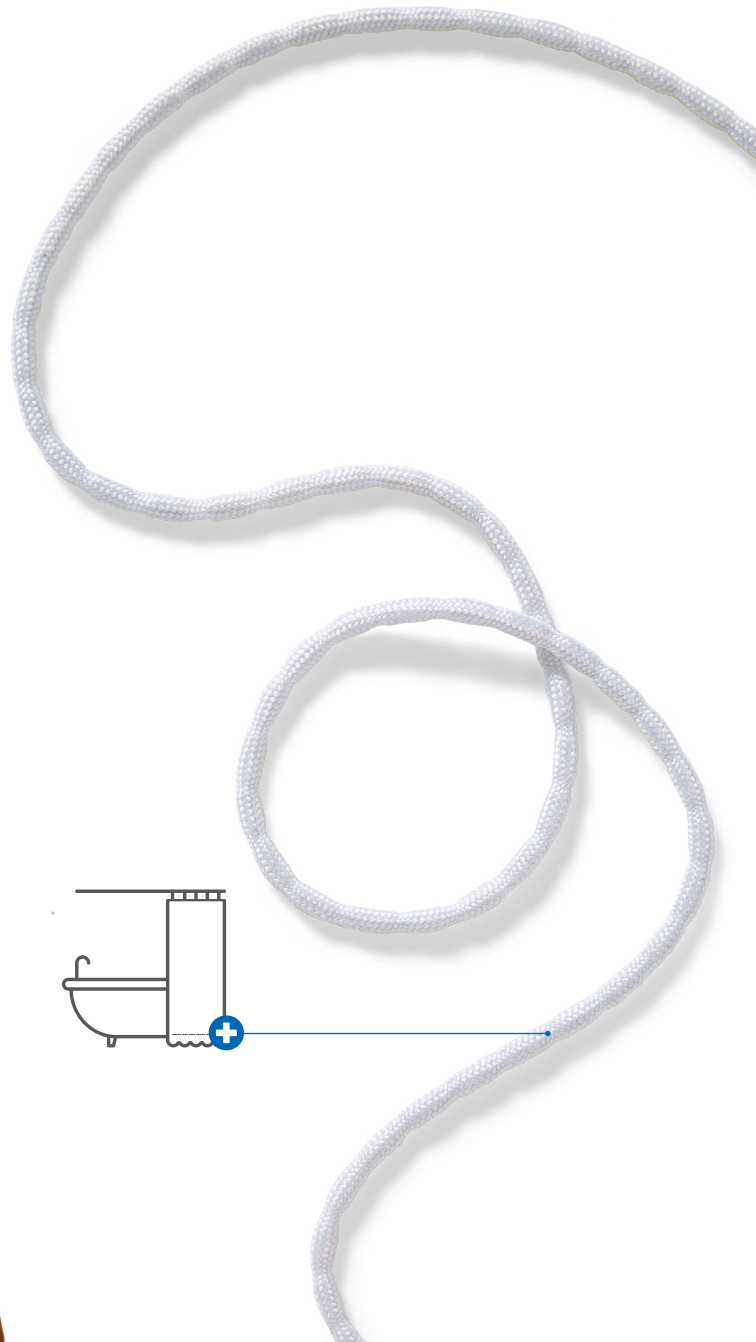

## Mesh

Some facilities require mesh to be used in shower stalls to meet certain fire code regulations. Mesh can be added to the top of any shower curtain, in 2" increments from 4–40" and finished with grommets or hook-and-loop. Contact your Medline Representative for details.

## Chain Weights

Chain Weights are sewn into the hem to help curtains remain in position and improve the hang for a classic look.

# Shower Curtain Accessories

## Shower Rings and Hooks

Choose plastic rings, steel snap hooks or wire hooks with ball bearings to complement your décor.

### Ordering Information

IFC70R9FT*	Stationary Shower Rod, 108" Wide	1 ea
IFC71B	Wall Mount Brackets	1 pr

\*Brackets and screws not included. To purchase, order IFC71B.

# General Measuring Tips and Instructions

## Do's and Don'ts

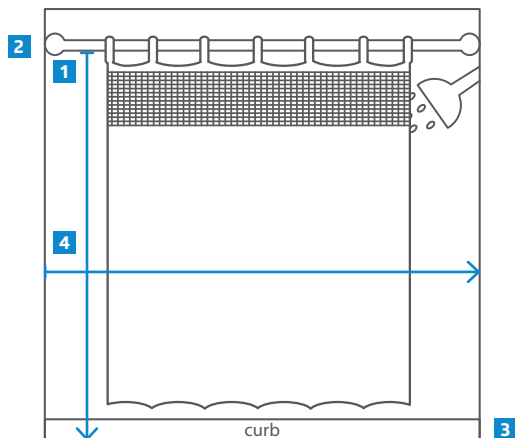

- 1** Do always measure every shower opening, ceiling or track that requires curtains. Although the openings may look the same size, they may be a little different.
- 2** Do use a 1" steel measuring tape.
- 3** Do list "width" first and "height" second with giving measurements (e.g., 67"W x 90"H).
- 4** Do round your measurements up and use the appropriate increment. Measure to the nearest inch.
- 5** Do record all important information regarding hardware when having a product made to fit an existing rod or track.
- 6** Don't measure only the curtain when ordering replacements. It's not uncommon that after laundering, the curtains would be installed in the wrong showers or that the product installed is not the ideal fit for the space.
- 7** Don't approve a mock-up sample without installing it.
- 8** Do contact product support for help when needed.

### Installation Options

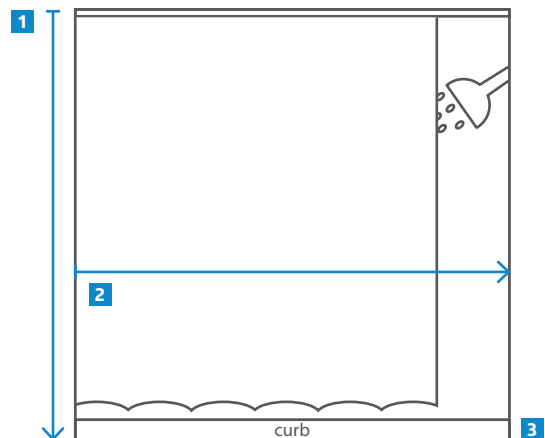

Choose from these two installation options when ordering:

#### Shower Rod Install

- 1** Measure from bottom of rod to where you want the curtain to end = Bottom of rod to bottom of curtain
- 2** Indicate diameter of rod—normally 1"
- 3** Things to note:
  - Is there a curb?
  - Do you want the bottom of the curtain to hit the floor or the top of the curb?
- 4** Measure opening width

#### Track Install

- 1** Measure floor to ceiling height
- 2** Measure opening width
- 3** Things to note:
  - How much floor clearance do you need?
  - Is there a curb?
  - Do you want your curtain to touch the floor, or do you want any clearance?

**Note:** Hidden Hookless and Hookless curtains have additional fabric above the ringset which adds to the required curtain length. Please contact Product Support for questions on how to measure Hookless or Hidden Hookless shower curtains.
